

# PVRPLE GIN®

Category	Spirits
Producer	Distillerie Massenez
Country	France
Size	500 ml
Degree of alcohol	40 %
Available	Québec

## Terroir

Pvrple Gin® is the meeting of two worlds: between tradition and madness. Madness carried by the small cherries macerated in the Liqueur.

## Vinification and maturation

Its singularity consists of the final addition of some Griottines®. These small wild cherries give it both its light purple coloring, as well as a tangy note, giving a relief to this Gin, obtained by maceration and distillation.

## Features

A surprising character, comparable to the sensation of tasting a sour candy: a duality between intensity and sweetness, seen more as a complementarity, which envelops each level of its tasting.

## Product code

Québec : 13631135
